**Statement Explaining Compliance with CPNI Rules**

Southern California Edison ensures compliance with the customer proprietary network information ("CPNI") rules of the Federal Communications Commission ("FCC"), 47 C.F.R. §§64.2001-2009, and Section 222 of the Communications Act of 1934, as amended (the "Act"), 47 U.S.C. §222 in the following manner. First, currently we provide telecommunications services exclusively as a wholesale provider to other carriers, and therefore we do not use or have access to any end user CPNI, and specifically we do not use any end user CPNI in any marketing efforts. Second, in the future if we provide retail services to end users and use or have access to any CPNI, we will establish a supervisory review process to ensure compliance with the FCC's end user CPNI rules, including monitoring company practices, and requiring that we obtain customer approval of use or disclosure of end user CPNI before such information is used in any marketing efforts. *See* 47 C.F. R. §64.2009(d). Third, an officer will certify annually that we continue to provide telecommunications services exclusively as a wholesale provider to other carriers and do not use or have access to any end user CPNI or have established procedures adequate to ensure the company's compliance with the FCC's end user CPNI rules. *See* 47 C.F.R. §64.2009(e).
